OBJECTIVE

Passionate and detail-oriented AI/ML & Full Stack Enthusiast with strong skills in Java, Python, MySQL and React JS. Seeking to leverage expertise in machine learning algorithms, deep learning, and Full Stack development to build intelligent, data-driven applications that solve complex real-world problems.

PROJECT EXPERIENCES

RetinaDiseaseNet – Retinal Disease Classification System

- Engineered a robust Convolutional Neural Network (CNN) using EfficientNetB0 to classify fundus imagery into six distinct categories: Cataract, Diabetic Retinopathy, Pathologic Myopia, Age-Related Macular Degeneration, Retinal Vein Occlusion, and Normal Healthy Eyes.
- Optimized model performance through advanced data preprocessing, augmentation techniques, and fine-tuning, significantly enhancing diagnostic accuracy for early disease detection.

AI Document Assistant – Document Summarization and Question Answering System

- Developed an AI-based application that allows users to upload PDF or TXT documents and automatically generate summaries and answers to user queries.
- Implemented a **Retrieval-Augmented Generation (RAG) pipeline** using **LangChain, HuggingFace embeddings, vector database, and Ollama LLM**, along with a **responsive Streamlit interface** for interactive document chat.

Learning Management System (LMS) – React-based E-Learning Platform

Group Project during Internship at Experiminds Lab

- Developed a single-page Learning Management System using React and Vite, implementing role-based authentication, reusable components, and state management with React Hooks for a smooth user experience.
- Built a video-based course module with progress tracking and resume playback using the HTML5 video API, and implemented localStorage-based session persistence and dashboard analytics to monitor course completion and learning progress.

TECHNICAL SKILLS

- Languages:** Java, C, Python
- Database:** MySQL, MongoDB, Firebase
- Web Development:** HTML, CSS, JavaScript, React JS
- Mobile Development:** Flutter, Dart
- Data Science & Machine Learning:** Data Preprocessing, Data Visualization, Model Training & Evaluation, Deep Learning (CNN), TensorFlow (basic), LLM, RAG.

EDUCATION

Master of Computer Applications(MCA) 2026(Expected)
NMAM Institute of Technology, Nitte
CGPA: 8.42

Bachelor of Science (B.Sc) 2021 – 2024
SDM Degree College, Ujire
CGPA: 7.87

CERTIFICATIONS

- Flutter Development Workshop (4 Days) – NMAM Institute Technology(2024)
- Student Development Program on Cloud Computing – NMAM Institute of Technology, Nitte (DU)
In association with Wipfli Bangalore | April 2025
